

# WINNING A GUNFIGHT

## TRAINING SEMINAR

Hosted by the Hoover Police Dept.

### Does surviving a gunfight mean you won?

Not by a long shot. Most people who are in a gunfight survive - but there is a difference between surviving and winning. Surviving means you continue to exist - which is not the same thing as winning.

You need to understand what you will face before, during and after a gunfight. This seminar, based on "Winning a Gunfight," prepares the modern warrior to face the deadly foe - and win.

Sworn law enforcement only
