Winning a Gunfight

Training Seminar

Does physically surviving a gunfight mean you won? Not by a long shot. Many people survive gunfights. In fact, most people who are in a gunfight survive. But there is a difference between surviving and winning. Surviving means you continue to exist. Continuing to exist and winning are not the same.

Everyone who carries a gun for personal protection or the protection of others needs to understand what they will face before, during, and after a gunfight. This eight-hour seminar based on *Winning a Gunfight* helps prepare the modern warrior to win in the event they face a deadly foe.

Every student receives a copy of *Winning a Gunfight*, foreword by Lt. Col. Dave Grossman

“Winning Is More than Surviving”
