# Winning a Gunfight

Training Seminar

## Instructor

Career police officer and author Tim Rupp understands both sides of a gunfight. Tim retired from the San Antonio (Texas) Police Department after 24 years and continues to serve as a reserve deputy in Idaho. Drawing from personal and professional experiences as a patrol officer, homicide detective, and police sergeant, Rupp takes you through what you'll face in a gunfight and help prepare you to win.

Does physically surviving a gunfight mean you won? Not by a long shot. Many people survive gunfights. In fact, most people who are in a gunfight survive. But there is a difference between surviving and winning. Surviving means you continue to exist. Continuing to exist and winning are not the same.

Everyone who carries a gun for personal protection or the protection of others needs to understand what they will face before, during, and after a gunfight. This eight-hour seminar based on *Winning a Gunfight* helps prepare the modern warrior to win in the event they face a deadly foe.

**Every student receives a copy of *Winning a Gunfight*, foreword by Lt. Col. Dave Grossman**

**Target Audience:** Law Enforcement officers, military, use-of-force instructors, armed private security personnel, firearm/tactics instructors, armed citizens. **Meets Idaho POST for UOF training.**
