

### Instructor

Career police officer and author Tim Rupp understands both sides of a gunfight. Tim retired from the San Antonio (TX) Police Department after 24 years and served 11 years as a reserve deputy on the Bonneville County Sheriff's Office (ID). Drawing from personal and professional experiences as a patrol officer, homicide detective, and police sergeant, he takes you through what you'll face in a gunfight and help prepare you to win.

Does physically surviving a gunfight mean you won? Not by a long shot. Many people survive gunfights. In fact, most people who are in a gunfight survive. But there is a difference between surviving and winning. Surviving means you continue to exist. Continuing to exist and winning are not the same.

Everyone who carries a gun for personal protection or the protection of others needs to understand what they will face before, during, and after a gunfight. This seminar, based on *Winning a Gunfight*, helps prepare the modern warrior to win in the event they face a deadly foe.

**Author of *Winning a Gunfight*,  
foreword by Lt. Col. Dave Grossman**
